COMPANY PROFILE

Established in 1993 and located in Kochi, India, Holmarc Opto-Mechatronics P Ltd manufactures variety of scientific and engineering instruments for research, industry and education. Our products in the fields of spectroscopy, microscopy, holography and thin films reflect capabilities we have in multitudes of disciplines, be it optics, mechanics, photonics, electronics or computer science.

Our strength is 170 people as of January, 2015 and is still growing. All our departments, be it optics design, optics manufacturing, mechanics design, electronics R&D or software development are all manned by experienced professionals in the respective disciplines. We have 25000 sq. ft. built up area for housing our manufacturing infrastructure in optics, mechanics and electronics. With state of the art machines, equipments and instruments, holmarc technicians and engineers bring out world class products, each distinct and best in its kind. Holmarc is unique in its approach to providing service. We give maintenance and modification support for all our products as long as our customer needs it irrespective of warranty or year of purchase. We do not make any of our products obsolete, rather encourage our users to modify and use as long as it is technically possible.
